GENERAL OVERVIEW

Argus Security Projects is an international security company providing comprehensive and tailored protective services, logistics, procurement and training for the defense, energy, and financial sectors, as well as high net-worth clients, diplomatic missions and international organizations operating in high-risk, volatile, hostile, and complex environments.

We currently have operations and are deployed in challenging environments including Saudi Arabia, Libya, Mauritania and Syria but also in the Balkans and the European Union. Our field experience acquired since 1997, has positioned our company within the security industry landscape as a professional and reliable provider.
COMPANY PROFILE

ASP Group

The fact that we do have operations, offices and operational rooms in several countries already up and running, allows us to provide to our clients, thanks to our footprint on the ground:

- A capacity of projection and support in case of crisis
- A top-quality service at a competitive price

Our international staff come from reputable European army and Police units and receive an ASP specific standard training tailored to our clients in line with best security industry practice.

Our integrated approach enable us to be able to provide, cover and support upon request all aspects and phases of our clients’ operations:

- Pre-deployment Support and Advice Security Risk Assessment
- Risk Mitigation Measures
- Cost Effective Security Strategies
- Minimum Operating Security Standards
- Contingency Planning
- Standard Operating Measures
- Business Continuity Planning
- Guard Services, Access control, Mobile Patrols
- Close Protection Services
- Self Sufficient Evacuation and/or Relocation Plans
- Accommodation, Office identification and Assessment
- Guest Houses Services
- Ground Transport
- Travelers Advises Briefing and Trainings (Hostile Environment Security Training for Corporate Staff)
- Ops Rooms 24/7 Support and Watch keepers
- Local Administrative Support

We also focus our efforts in constant improvement of quality standards and in reinvestment in business development, namely in training. Our edge in the field is our local manpower, especially selected and properly trained to our standards allowing us to implement security setups integrating our experience, the local regulations and sensibilities to best satisfy the client’s needs.

We strive to reach the highest standards of honest and ethical behavior by promoting integrity and good governance. We also endeavor to develop our integration in the countries where we operate by understanding and following local customs and unwritten laws but also by promoting professionalism by sharing experience and developing educational programs.

OUR WORKING LINE

The fact that we do have operations, offices and operational rooms in several countries already up and running, allows us to provide to our clients, thanks to our footprint on the ground:

- A capacity of projection and support in case of crisis
- A top-quality service at a competitive price

Argus Security Project’s success lies in the selection of its staff, partners, equipment and the developing of long term relationships with its clients in order to provide quality security services tailored to their needs and budget.

Our operations in the field are self-sustained allowing us to reduce HQ management, shorten the line of communication with the clients and deliver responsive global security services and support.
COMPANY PROFILE
ASP Group

OUR SERVICES

Our competitiveness stems from our extensive field experience, capacity of reaction and adaptation, streamlined management and communication structure, human resources pool, international and local staff, as well as local competence, partnerships and training. Argus Security Project proposes a full range of security solutions.

ASSESSMENT / SUPPORT
The cornerstone of any strategic decision particularly in terms of safety/ security is intelligence. Our services rely on local knowledge and extensive field experience, which has led to the development of ASP's local networks. These networks help ASP to identify possible threats and to evaluate the risk based on a typical threat/ risk matrix, in order to mitigate the client's exposure.

INTEGRATED SECURITY SERVICES AND LOGISTICS
Our company is a security provider for the European Union securing premises and persons in volatile regions such as the Middle East and North Africa. We are also providing services for the oil and gas industry, Diplomatic and International Organizations as well as high net-worth clients. In this specific context we developed services which include Quarterly reports, Security assessments, Pre-deployment trainings for corporate staff and managers, Surveillance systems, Security guards, Mobile patrol, Ops rooms 24/7, Quick Reaction Teams (QRT) 24/7, Close protection teams.

Secure transport of people and equipment in hostile/ complex environments is one of our main activities. Providing journey management planning, accommodation and equipment in conflict and post-conflict countries can be a challenge, especially in the Middle East and Africa.

Our teams have experience and resources to successfully provide logistical support for our clients' mission (short term or long stay) and assist identifying best suitable locations for offices, accommodations, ground transport, Airport meet and greet and transportation, Guest house services and administrative support.

Our strength relies on our ability to provide tailored integrated security services to our clients.

CRISIS MANAGEMENT
Our various operations in unstable regions have enabled us to gain experience and expertise in the field of crisis management: Quick Reaction Teams, Ops room 24/7 and Watchkeepers, Business continuity planning, Emergency relocation and Evacuation, Contingency planning

TRAINING
In an increasingly competitive and unstable world, security training and awareness are essential in order for companies to maintain control of their environment and their information. Our trainings are intended for companies and individuals, and adaptable to their specific needs including: Security/ Safety Awareness, Contingency planning, Business intelligence, Crisis communication, Data protection, Standard operating procedures, First aid, Advanced trauma training and Hostile environment security training.
EMBEDDED SECURITY MANAGERS
ASP security managers are recruited based on their experience on the field and follow an in-house training and selection to guarantee best standards and service to the client. Our security managers are trained to adapt and develop the security culture of the client according to the client specific standards (if any) or will help the client to develop their own standards, procedures and assist in the implementation in line with the duty of care, and balancing costs and risks.

Through outsourcing security management the administrative issues are solved, the position can be covered without interruption relying on ASP to provide replacement or back to back security managers. From deploying the security manager within your company (upgrading your company's protection based on industry best standards, identifying cost-saving opportunities) to deploying field security managers on dedicated projects (preparing regular risk assessment, managing site-specific emergency responses, ensuring all relevant SOPs are updated, conducting regular trainings) we can develop very cost effective model that will assist your operations and guarantee due diligence.

MONITORING PERSONNEL AND ASSETS 24/7
Our Monitoring Emergency Response Centers are staffed 24 hours a day, 365 days a year, with highly trained security professionals who follow streamlined standard operating procedures to ensure efficient and effective service delivery. Apart from the standard Fire, Intruder and event monitoring with emergency services, our sites are fully equipped for the remote monitoring of clients CCTV and Video surveillance systems (analog/hybrid/IP), and rebuild/upgrade such systems if needed. We also have all necessary equipment and experience provide various Location Based Services (Lone Worker, Vehicle/Asset tracking, Geo-fencing and monitoring etc.) with Proactive and/or Reactive responses on trigger events, depending on the protocol agreed with the client.

ASP MOBILE SECURITY APPLICATION SYSTEM
In emergency situations, the ability to provide immediate notifications, particularly in situations when every second counts, can be a lifesaver.

Key features of the ASP Mobile Security system:
- Fast crisis communication and incident management,
- Simple and intuitive user interface design.
- Robust messaging system
- Automatic failover to SMS or voice calls when Internet connectivity is not available.
- Multi-device support
- Full support for location services: shows exact real-time location of the system users
- Logging of all events

System is made to be easily customized to client needs and typical scenarios.

ARGUS SUPPORT PROJECTS

GENERAL OVERVIEW

Argus Support Projects (ASP) is an international equipment supply company that provides security equipment, logistics and training for our clients. We work with clients from the defence, energy and financial sectors, as well as diplomatic missions and international organizations operating in high-risk, complex and volatile environments.

As a subsidiary of Argus Security Projects Holdings Ltd, our company was born out of support for our group’s operations. We have been working in challenging environments in the Middle East, North Africa and the Caribbean since 1997.

OUR COMPETITIVE ADVANTAGE

We are an equipment supply company that is well-established in the defence and private security sectors. We work with trusted manufacturers that allow us to offer a wide variety of solutions to match budgets and lead times. We depend on a strong logistics network to ensure delivery, installation and maintenance of your equipment in the most challenging environments.

SERVICES

EQUIPMENT

We offer a wide range of equipment to support all types of operations. With a varied network of suppliers, we are able to find the equilibrium of price, quality and delivery time to match our clients’ needs.

LOGISTICS

With access to a well-established logistics network, we can provide various options for delivery of your order. We are in a position to arrange the most reliable, trusted and time-efficient logistics provider to match your requirements. We offer air charter and sea freight shipments to most of the Middle East and Africa. In addition we cater to all types of cargo including hazardous or dangerous goods.

Logistics Services: Air freight, ocean freight, express courier, trailer service and air chartering.

TRAINING

In addition to the products we offer, we are able to match it with professional training. A technical education is essential for the correct operation and maintenance of equipment. Depending on the origin of goods, training can be offered on site of the manufacturer or in-country.
EXPERIENCE

Since 1997 we managed hundreds of projects successfully from organizing a VIP visit to Cairo for 2 days to high value projects like in Libya where we provided integrated services including security, logistics, procurements and even housing. We also managed a great number of crisis from relocating to evacuating clients: for example in South Sudan due to conflicts or in Haiti following the earthquake. We also have a great experience in managing and solving hostage situations.
