

SPONSORING YOUTH CREATIVITY

Written by teenagers from the Senior School in Cyprus, a post pandemic version of the famous Alice in Wonderland discloses important concerns hounding the island's young people.

ASP was proud to be among the sponsors of the original musical "Almost Alice," thus participating to encourage youth creativity. The script and the music have been fully developed and composed by teachers at the Senior School. As stated by the Director and writer Eleni Cosma, "Almost Alice was not on the original agenda for this year. But if there is one thing the past few years have taught us is that things do not always go the way we expect."
